

Implemented on budget, on time,
and a ROI within a year

CASE STUDY

SUMMARY

Ci-DMS MES (Manufacturing Execution System) was implemented on budget, on time, and a Return of Investment within a year.

CUSTOMER

A British multinational consumer goods company producing health, hygiene and home products.

CHALLENGE

- Decommission legacy ERP and re-implement
- Grow capacity with minimum process change
- Maintain close control over manufacturing costs

SOLUTION

- Ci-DMS was retained in 4 dispensing booths in the central dispensary
- CI delivered the data migration and designed, built and validated the interface
- The project involved personnel from IT, validation and global headquarters

OUTCOME

- The system was implemented on budget and within the required timeframe
- The ROI was achieved within a year
- The system since been expanded to 11 dispensing booths
- Since the first installation in 2006 Ci-DMS has been adopted as the global standard
- Implemented in UK (multiple), France, Thailand, India and the USA
- Cited as the best supported global system

“Ci-DMS is the best supported solution of all our global IT products”
